SR. CREATIVE PROJECT MANAGER & TECHNICAL DIRECTOR

Dynamic, resourceful, and technically grounded Project Manager with over a decade of experience leading cross-functional teams across video production, live events, and product development. Proven track record managing high-stakes, localized UI assets for global brands like Apple, as well as directing end-to-end technical production (AV, lighting, and networking) for large-scale events. Expert at balancing creative vision with rigorous business strategy, budget execution, and timeline management to maximize ROI.

PROFESSIONAL EXPERIENCE

Apple via Hogarth | 2021 – Present

- **Image Content Manager** (September 2025 – Present)
 - Promoted to lead expanded visual content portfolios, gaining full autonomous sign-off authority to approve final product marketing assets without secondary oversight.
 - Directed end-to-end localization pipelines for global markets, ensuring regional compliance, cultural accuracy, and synchronized worldwide product launches.
 - Continued to drive cross-functional alignment across creative and engineering teams to maintain asset velocity and precision.
- **Video Content Project Manager** (2021 – September 2025)
 - Managed end-to-end video production lifecycles for high-fidelity, UI-accurate screen animations featured on Apple.com, global broadcast advertising, and retail demos.
 - Coordinated seamlessly across cross-functional creative, business affairs, and engineering teams to deliver localized on-device assets for major product verticals including Vision Pro, iPhone, and Mac.
 - Maintained absolute attention to detail and rigorous quality assurance testing throughout the digital product asset lifecycle.

Technical Director | Graceway Church | 2015 – Present

- Design, manage, and execute all technical and creative aspects of live weekly productions and large-scale regional events, overseeing lighting, sound, video, and network infrastructure.
- Interface directly with senior leadership to map creative vision to technical execution, keeping operational strategies aligned with organizational goals.
- Recruit, train, and facilitate technical operation workflows for a diverse team of volunteers, fostering a high-performance creative environment.

Product Development Coordinator | Williams-Sonoma Inc. (Pottery Barn Kids) | 2018 – 2021

- Streamlined product asset workflows by tracking deliverables between internal design artists, business affairs, licensing teams, and international manufacturing partners to ensure on-time product launches.
- Coordinated with cross-functional team members to manage new product creation from concept approval through mass manufacturing.

- Managed critical communications and timelines between the in-house design staff, mock store display builds, and executive review sessions.

Marketing Event Manager | Encore | 2015 – 2018

- Managed high-profile corporate events from initial concept to completion, executing video production, advanced AV elements, and venue coordination for audiences ranging from 50 to 4,000 attendees.
- Directed creative and labor teams while facilitating smooth communication pathways between various corporate product groups.
- Oversaw strict budget allocations and venue execution parameters to ensure maximum client satisfaction and ROI.

Marketing Operations Manager | Cornology | 2011 – 2016

- Spearheaded a comprehensive brand overhaul, including the design of a modern corporate logo, custom food-grade packaging, multi-store physical layouts, and an e-commerce website.
- Evolved the baseline business model to expand operations from local brick-and-mortar retail to high-volume wholesale, bulk, and online digital sales channels.

Technical Engineer | Community Presbyterian Church | 2004 – 2010

- Led multidisciplinary design teams producing print layouts, online artwork, and interactive environmental displays to build cohesive thematic campaigns.
- Strategized during weekly leadership meetings to provide technical insights and inspiration for multi-tier lighting, audio, and video integrations.
- Managed logistics, transportation, professional staff, and volunteer crews across multiple live event productions.

CORE SKILLS & EXPERTISE

- **Project & Lifecycle Management:** Cross-functional Leadership, Stakeholder Management, Agile/Scrum, Product Lifecycle Management (PLM), Budgeting & Resource Allocation, Quality Assurance (QA) Testing.
- **Creative Production:** Technical Direction, Broadcast & Video Production, Global Localization, Audio Recording & Editing, Live Theatrical Design (Lighting, Sound, Video), UI/UX Animation Oversight.
- **Design & Branding:** Corporate Identity & Logo Design, Signage, Custom Packaging Design, Digital & Physical Asset Creation.

TECHNICAL PROFICIENCIES

- **Creative Suites:** Adobe Premiere Pro, Adobe Photoshop, Adobe Illustrator.
- **Project Tools:** Asana, Jira, Wrike, Windchill PLM.
- **Productivity:** Apple iWork, Microsoft Office Suite, Google Workspace.
- **Networking:** Computer Networking Technology, Dante Audio Systems.

EDUCATION & CERTIFICATIONS

- **Associate Degree / Coursework in Computer Networking Technology** – Diablo Valley College (2008)
- **Dante Audio Networking Certification** – Level II (2020)
- **Microsoft Certified Professional (MCP)** – Computer Networking Technology (2013)
